

CHONDROSARCOMA AWARENESS

Friday, Feb. 4th Wear Your Yellow Ribbons!

Small Change Leads To Big Change!

- What is Chondrosarcoma? Chondrosarcoma is a rare bone cancer that affects less than 3,000 people worldwide a year.
- On March 7th, 2021, Ms. Sarcone was diagnosed with Chondrosarcoma and had a major surgery that has caused her to not be able to walk.
- **Now until Feb. 11th Ms. Sarcone is asking all students to bring in spare/loose change to drop in a jar in room 302 during HR, Lunch or at End of the day.** The total will be donated to the CS Foundation in honor of all CS warriors! Ms. Sarcone will host a pizza party after school, Feb 15 from 3:00-4:00 to celebrate the top 10 donators!! Wear your yellow ribbons on Friday in honor of Ms. Sarcone.

All pennies, dimes, nickels, and quarters are acceptable! :)

Be Part of the Change!
